Surround Me

LÉON

Wasn't gonna go out
I was gonna stay in
Another Friday night on my own

Then I started drinking
My phone started ringing
I got my shit and walked out the door

Oh every time you cross my mind
I get stupid
Whoa

Don't overthink it
Just finish up your drink
And surround me, surround me
The night ain't over
We're far from being sober
Surround me, surround me
'Cause I like you, I like you, I like you a lot
How to see through the smoke
I don't know how you found me, you found me
The night ain't over
We're far from being sober
Surround me, surround me

Baby take me outside
Kiss me in the moonlight
I just want you to touch me
I don't wanna waste no time

You don't even know me
But I want you to show me
What it feels like to be alive

The lights go down
I want you around me
Whoa

Don't overthink it
Just finish up your drink
And surround me, surround me
The night ain't over
We're far from being sober
Surround me, surround me
'Cause I like you, I like you, I like you a lot
How to see through the smoke
I don't know how you found me, you found me
The night ain't over
We're far from being sober
Surround me, surround me

So don't let me go, no don't let me go
Surround me, surround me
So don't let me go, no don't let me go
Surround me, surround me
So don't let me go, no don't let me go
(Don't let me go, don't let me go)

Surround me, surround me
So don't let me go, no don't let me go
Surround me, surround me

Don't let me go
Don't let me go
Don't let me go
