LÉON

I don't know is all you have say  
All I want is honesty from you lately  
You don't care, acting so indifferent  
And you know it, yeah you know it

So many reasons for you and I  
To go and leave one and other behind  
I don't know why, like ooh, like ooh  
All of the times that you fucked my head  
Go on and do that with another instead  
Cause I don't know why, like ooh, like ooh

I was your treasure, treasure, treasure  
I was your treasure  
I was your treasure, treasure, treasure  
I was your treasure

Late in the night, you wonder what I'm hiding  
Calling me out, you're drunk I'm tired fighting  
Silent treatment, my heart's beating  
Is all we had now lost?  
Yeah you know it, yeah you know it

So many reasons for you and I  
To go and leave one and other behind  
I don't know why, like ooh, like ooh  
All of the times that you fucked my head  
Go on and do that with another instead  
Cause I don't know why, like ooh, like ooh

I was your treasure, treasure, treasure  
I was your treasure  
I was your treasure, treasure, treasure  
I was your treasure

I don't even bother anymore  
But say something, say something, say something  
We can't get along like this no more  
Just say something, say something

I was your treasure, treasure, treasure  
I was your treasure  
I was your treasure, treasure, treasure  
I was your treasure
