

Who You Lovin

LÉON

Day and night, I been worrying
Tryna shake you off of me
All this time I spent hurting
Wonder what you think of me

And you've been talking in my head
You're always standing in my way, oh no, no
My heart, it always deceives me
I just need to let it be, let it be

But there are times I fall
I get a few

Like who you lovin' if you don't love me?
Who you lovin' if you don't love me?

I know I'm better off solo
Shouldn't have to be this hard
For you, I try to be different
Oh, for you, I fall apart, fall apart

And you've been talkin' in my head
You're always getting in my way, oh no, no
My mind, it always deceives me
I just need to let it be, let it be

But there are times I fall
I get a few

Like who you lovin' if you don't love me?
Who you lovin' if you don't love me?
Who you think of if it ain't of me?
Who you lovin' if you don't love me?

I've been blind
You ain't real
You're playing nice
Sometimes you act so mean
Sometimes it gets so tough
I get a few

Like who you lovin' if you don't love me?
Who you lovin' if you don't love me?
