

You And I

LÉON

Seeing the sun go down against staying in my bed for too long now
Heard you were out last night
My friends say you're looking well, you seem happy
But you're a liar if you say that you're fine
That you wonder if I think of you now
Done my best to stay away but I think I'm going crazy

You and I
You don't wanna talk about it
You don't wanna talk about
You and I
We don't ever talk about it
But in my head you say, say you still want it
That you're done with being lonely now
It's you and I
You and I

Standing beneath the flickering lights
When I shut my eyes you seem closer
Dancing to keep the tears away
Get this heavy weight off my shoulder
And every stranger I pretend they are you
They never hold me
Never touch like you do
Done my best to stay away
But I think I'm going crazy
I'm going crazy

You and I
You don't wanna talk about it
You don't wanna talk about
You and I
We don't ever talk about it
But in my head you say, say you still want it
That you're done with being lonely now
It's you and I
You and I

I know you're out there somewhere, somewhere in the night
For a fleeting moment thought you passed me by
See the sun come up now, as it hits my eyes
All the things I wanna tell you, you don't wanna talk about

You and I
You don't wanna talk about it
You don't wanna talk about
You and I
We don't ever talk about it
But in my head you say say you still want it
That you're done with being lonely now
It's you and I
You and I

You and I
You and I
