

Call You by Your Name

Leona Naess

Little feet, they kicked me so
And now you're raging like a tornado
I'm not ready to let you go
Can I call you by your name?
Twinkle, twinkle, little star
I think you're lovely as you are
But who am I to understand?
I'll always reach out for your hand

I don't wanna be the one who says your dreams are not allowed h
ere
I don't wanna be the one who's in your way
I wanna be the one who shines her golden light around you
Can I, can I just call you by your name?
Can I, can I just call you by your name?

At ten, the cracks begin to show
Becoming someone you don't know
I hear you dancing from below
A lion we could never tame

So crawl up into that space
Before you're too old for my embrace
Now begins another chase
Me to you and you to them

I don't wanna be the one who says your dreams are not allowed h
ere
I don't wanna be the one who's in your way
I wanna be the one who shines her golden light around you
Can I, can I just call you by your name?
Can I, can I just call you by your name?

I don't wanna be the one who says your dreams are not allowed h
ere
I don't wanna be the one who's in your way, I
I wanna be the one who shines her golden light around you
Can I, can I just call you by your name?
Can I, can I just call you by your name?
