

# Nevermind

Leoniden

You know you got a future  
You know you gonna get somewhere  
But if something feels like home  
You know you don't belong there

Do you  
Hear the people whispering  
Are you even listening  
I don't know

I got a situation  
I'm living in a place that fucks me up  
A bunch of wrong decisions  
Can you get up here?

I got a situation  
I'm living in a place that fucks me up  
A bunch of wrong decisions  
Can you get up here?  
Can you get up here?

Ah-ah

I was tired there  
I feel lonely here  
But I guess it's right  
The city kinda shines

Do you  
Do you even understand  
How it is to leave your friends  
To get somewhere  
I do now!

I got a situation  
I'm living in a place that fucks me up  
A bunch of wrong decisions  
Can you get up here?  
Can you get up here?

I got a situation  
I'm living in a place that fucks me up  
A bunch of wrong decisions  
Can you get up here?  
Can you get up here?

Yeah yeah yeah

I was tired  
(I was tired)  
Nevermind  
(Nevermind)  
You know you get used to a lot  
(You know you get used to a lot)  
I was tired  
(I was tired)  
Nevermind

(Nevermind)  
You know you get used to a lot  
(You know you get used to a lot)  
I was tired  
(I was tired)  
Nevermind  
(Nevermind)  
You know you get used to a lot  
(You know you get used to a lot)

You know  
I miss my place  
I miss my home  
I miss my friends

I was tired  
(I was tired)  
Nevermind  
(Nevermind)  
You know you get used to a lot  
(You know you get used to a lot)  
I was tired  
(I was tired)  
Nevermind  
(Nevermind)  
You know you get used to a lot  
(You know you get used to a lot)  
I got a situation  
(I was tired)  
I'm living in a place that fucks me up  
(Nevermind)  
A bunch of wrong decisions

Can you get up here  
(Can you get up here)  
Can you get up here  
(Can you get up here)
