

# River

Leoniden

I got lost in a river  
Floating with my back up to the sky  
And it was all along a river with another side  
I've been chasing something in my mind, oh yeah  
And it was all along a river with another side  
I am sure I have been here before  
But you were by my side, boy

Something's in the water or in the air  
That I inhale that makes me sick  
And it was, it was all along a river with another side  
Something's in the water or in the air  
That I inhale that makes me sick  
And it was and it was all along a river with another side

I was so lost and I was alone and I was so lost  
But I deserved it anyway, yeah  
And it was all along a river with another side  
I was a fool and I'm a fool and I'm a fool for you  
And it was all along a river with another side  
I have no control  
I'm floating to no coast and  
I'll be drowning soon

Something's in the water or in the air  
That I inhale that makes me sick  
And it was, it was all along a river with another side  
Something's in the water or in the air  
That I inhale that makes me sick  
And it was and it was

I got lost in a river  
I got lost in a river  
Yeah, Yeah, Yeah, Yeah
