

Above And Beyond

Leony

Never thought that it was real
What they talk about on all these movies
But seein' you has made me feel
What they meant

I'm leaving everything behind
'Cause from now on, home is right where you hide
And suddenly the stars align
Like it's meant to be

No matter that where you go
I hope that you will always know
Whenever you need me, I'm close

I'm gonna love you
Till the end of it all, above and beyond
Gonna love you
When I have nothing left, my heart is still a place for you
Oh, oh-oh-oh
Till the end of it all, above and beyond
Oh, oh-oh-oh
When I have nothing left, my heart is still a place for you

Through the highs and through the lows
There's nothing that could never break us
I know it deep inside my bones
We will last

No matter where you go
I hope that you will always know
Whenever you need me, I'm close

I'm gonna love you
Till the end of it all, above and beyond
Gonna love you
When I have nothing left, my heart is still a place for you
Oh, oh-oh-oh
Till the end of it all, above and beyond
Oh, oh-oh-oh
When I have nothing left, my heart is still a place for you

Till the end of it all, above and beyond
When I have nothing left, my heart is still a place for you
