

# Faded Love

Leony

You left your ugly sweater  
So that I can't forget ya  
I'm so fed up when you're around, round, round, round

And when I'm feeling better  
You always find a way to  
Get in my head and bring me down, down, down

I tried and tried and tried, but I can't let go

So come set me free  
I'm done feeling blue  
I'm falling apart  
A faded love

I'm counting to three  
I hear the alarm  
I'm falling apart  
A faded love

Faded love...

So come set me free  
I'm done feeling blue  
I'm falling apart  
A faded love

I'm counting to three  
I hear the alarm  
I'm falling apart  
A faded love

See you in different places  
A room with thousand faces  
You're like a ghost haunting me now, now, now, now

I can't forget your perfume  
It all reminds me of you  
Oh, will I ever make it out, out?

I tried and tried and tried, but I can't let go

So come set me free  
I'm done feeling blue  
I'm falling apart  
A faded love

I'm counting to three  
I hear the alarm  
I'm falling apart  
A faded love

Faded love...

So come set me free  
I'm done feeling blue  
I'm falling apart

A faded love

I'm counting to three  
I hear the alarm  
I'm falling apart  
A faded love

Faded love...
