

No More Second Chances

Leony

We keep each other up every night 'cause
Everyone's unhappy with the way things are
Still we keep on going in the same rut
Only to complain that it was better before

Let's admit that we thought it's all roses and laughs
We were blind to reality
It's not that easy to say, but we gotta let go

No more second chances for our love
'Cause what we want is not enough
I know we had it all, but we forgot
How it once was back at the start

We're back and forth, we're up and down
We spin around, but don't get out
No more second chances for our love
'Cause what we want is not enough

We've been up so high now we're scared 'cause
The fall is gonna hurt, yeah it's a long way down
But I'll be by your side during the nosedive
Just promise me we'll end it when we're on the ground

Let's admit that we thought it's all roses and laughs
We were blind to reality
It's not that easy to say, but we gotta let go

No more second chances for our love
'Cause what we want is not enough
I know we had it all, but we forgot
How it once was back at the start

We're back and forth, we're up and down
We spin around, but don't get out
No more second chances for our love
'Cause what we want, is not enough

No more second chances for our love
'Cause what we want is not enough
I know we had it all, but we forgot
How it once was, back at the start

We're back and forth, we're up and down
We spin around, but don't get out
No more second chances for our love
'Cause what we want is not enough
