

# One Last Time

Leony

In my head right now  
Voices too loud  
I can't shut them up  
Try to fake the fun  
I can't slow down  
Think I've had enough

Guess that it means that I'm calling it off  
I wanna go though, I stayed here for us  
Messing up things and then calling it love

We're gonna dance, dance, dance through the night  
With your hand, hand, hand right in mine  
I'm gonna le-le-leave you behind  
So let's dance, dance, dance one last time

And we can move, you and I  
Until we lose our minds  
I'm gonna le-le-leave you behind  
So let's dance, dance, dance one last time

I can't eat, I can't breathe  
Lost a part of me  
But this is what we need  
But you know I've learned  
Sometimes good things hurt  
I can't stay to please

Guess that it means that I'm calling it off  
I wanna go though I stayed here for us  
Messing up things and then calling it love  
I'm scared that I'll miss you, so I take the chance  
Need one more touch and then never again  
Then I could say that we loved till the end

We're gonna dance, dance, dance through the night  
With your hand, hand, hand right in mine  
I'm gonna le-le-leave you behind  
So let's dance, dance, dance one last time

And we can move, you and I  
Until we lose our minds  
I'm gonna le-le-leave you behind  
So let's dance, dance, dance one last time
