

Somewhere In Between

Leony

(Somewhere in between, somewhere in between)

Put me inside a box
Breathing heavy 'cause it's not big enough
Everybody just talks
Stop wasting time 'cause I'm taking off my cuffs

Stay the same but change, why is it not making sense?
Confusion in my head, I didn't know who I am
The one who always felt like she is walking on broken glass

I stay the same, won't change, I'm sick of playing these games
Got clarity inside of me, I know who I am
No matter what you saw, I know my heart always stayed the same

Sometimes I wanna let go, let go
Start over from the get go, get go
The role I've played I've outgrown, outgrown
I'm somewhere in between
Somewhere in between

Sometimes I wanna let go, let go
Start over from the get go, get go
Don't care as long as I know, I know
I'm somewhere in between
Somewhere in between

Gotta believe me, I've tried (Gotta believe me, I've tried)
I'm good at putting my feelings to the side
Got my eyes open wide (Got my eyes open wide)
A million colors and not just black and white

Stay the same but change, why is it not making sense?
Confusion in my head, I didn't know who I am
The one who always felt like she is walking on broken glass

I stay the same, won't change, I'm sick of playing these games
Got clarity inside of me, I know who I am
No matter what you saw, I know my heart always stayed the same

Sometimes I wanna let go, let go
Start over from the get go, get go
The role I've played I've outgrown, outgrown
I'm somewhere in between
Somewhere in between

Sometimes I wanna let go, let go
Start over from the get go, get go
Don't care as long as I know, I know
I'm somewhere in between
Somewhere in between (Somewhere in between)

Sometimes I wanna let go, let go
Start over from the get go, get go
Don't care as long as I know, I know
I'm somewhere in between
Somewhere in between
