

Your Way

Leony

It's kinda funny how we're longing for somebody
Making misery a hobby, what a way to waste the time

I see somebody under California palm trees
And I hate to feel this envy but I guess it's not a crime

I hold on a little while till I
Feel better I
Keep my
Eyes open wide
Wide

But it's kinda funny when the road's a little bumpy
Makes me think that all the neighbor's grass is way greener than mine

When I'm down I think back
Grandpa used to say
What's meant to be will come your way
And if the sky turns to black
Just remember that
Rainbow's coming after the rain

Just hold on a little while I'll be
Right by your side
Keep your
Eyes open wide
Wide

And I'm up here everyday
Trying to keep you safe
What's meant to be will come your way
Your way

Sometimes I stumble upon words that kinda humble me
I don't think that the younger me would care about that stuff

She'd probably mumble that the other ones are trouble
And she never seemed to struggle 'cause she always felt enough

When I'm down I think back
Grandpa used to say
What's meant to be will come your way
And if the sky turns to black
Just remember that
Rainbow's coming after the rain

Just hold on a little while I'll be
Right by your side
Keep your
Eyes open wide
Wide

And I'm up here everyday
Trying to keep you safe
What's meant to be will come your way
Your way

What's meant to be will come your way
Your way
