

When I'm far from home  
I feel blurry  
Where my weight is gone  
There is nothing  
Whenever I go wrong  
I hear the same old song  
Voices from below  
I fear it never goes away

All I could do in the end was wait  
Laying down with my faith  
All I could do in the end was wait  
United with my fears  
I'll alleviate

The loop goes on and on  
Until my mind is gone  
Gone in circles  
The barricades are strong  
It's been that all along  
Have to accept it  
The tower can't be torn  
Before the cape is worn  
Losing control  
(It's the only way of living)

All I could do in the end was wait  
Laying down with my faith  
All I could do in the end was wait  
United with my fears  
I'll alleviate

All I could do was wait  
Laying down with my faith  
All I could do was wait  
Now I'll alleviate

All I could do was wait  
Laying down with my faith

All I could do in the end was wait  
Laying down with my faith
