

Limbo

Leprous

Fireball, fireball, flying above all
Undeniably viable, always in full control

Sharpening all my senses, broken through all defenses
Fixating all my power, to climb the broken tower

Fireball, fireball, flying above all
Undeniably viable, always in full control
Viable, viable, reliable, liable

How can it break me or affect me when I am armored from head to toe?
How can it break me or affect me when I'm rid of all my foes?

Abandoned hall, broken walls
Forgotten with no rejoice
Fireball, fireball, flying above all

When apathy would serve me better
I can't turn away
When altruism cost too much of me
I can't turn away

Fireball, fireball, flying above all

How can it break me or affect me when I am armored from head to toe?
How can it break me or affect me when I'm rid of all my foes?

Letting go, letting go
It's moving slow, moving slow
Pulsating afterglow
Fireball, fireball

Been seen as a rebel
The work of the devil
Renegade, renegade
Renegade, renegade

Been seen as a rebel
A whole other level
Alien, alien
Alien

Been seen as a rebel
Your own private devil
Renegade, renegade
Renegade, renegade

Been seen as a rebel
A whole other level
Alien, alien
Alien

When apathy would serve me better
I can't turn away
When altruism cost too much of me
I can't turn away

When I go around in circles
I can't turn away
When apathy would serve me better
I can't turn away
