

Not Even A Name

Leprous

Something that'll last
Forever, but never. Let it grow
Hurt from the inside
No one's on your side

No one to care for
Everyone to blame
No one to care for
Not even a name

A dream is reappearing
In inversion
The mind is working
Against the body

Signals misinterpreted
Language lost
The mind is working
Against itself

Keep building till you reach the sky
Don't look back. Don't slow down
A dream is reappearing
Now is the time to shine

Everything inside
Keep holding back
Don't let it out. Don't let them in
