

What is Love

Lera Lynn

I was younger without love
Trying to hold on to what I only had pictures of
She was something that I could hold
When I came from nothing, she made me a man of gold

I grew older and more confused
I turned the blind eye to everything I knew was true

What is love
I don't know
I couldn't love the one inside
So I had to let it go
Give me time
To look below
There's a black sea underground
There's a light somewhere I know

I've been keeping my own company
They're all saying that the one I'm missing is me
What is love
I don't know
I keep falling down the road
Looking for the one I've never know
Show me how
To set it free
So that I can walk alone
And still have everything I need
What is love
What is love
What is love
