

## You & Me Alone

Lera Lynn

Rain falls down, down on our shoulders  
We sit hand in hand  
Bright light flashes in the sky  
Silence fills the land  
Alone, you and me all alone  
Finally, you and me, in the rain, alone

I may love you more than ever now  
Dripping and glistening  
Storms are swirling round our heads  
But we're not listening

Though we absolutely could die here and now  
I'm alright getting struck by lightning  
Kiss my lips ka-pow

Flash floods may wash away the city  
The town would watch us drown in love, so pretty  
'Cause what could be a better way to die,  
Just you and I, holding hands up in the sky

I may love you more than ever now  
Dripping and glistening  
Storms are swirling round our heads  
But we're not listening

And though we absolutely could die here and now  
I'm already getting struck by lightning  
Kiss my lips ka-pow

Alone, you and me, finally, in the rain, alone
