

Out My Way

Leroy Sanchez

Head under water
You push me down
Said I looked thirsty then you held me till I drown
Begging for worship
You said bow down
Still taste your silver plated ring in my mouth

Can't stop the water in the river from running away
Can't stop the fire it'll burn if you pick up the flame
And like a ghost I can't let go I still remember the pain
I still remember the pain

But now it's turned to rhythm
Running through my veins
I've got a clearer vision
Since you've been away
And I can't help this feeling
It's gonna take me there
Don't mind just move out my way
Move out my way

My hands are shaking
Heart's beating fast
I turn the heat up, trying detox from my past
Well I though
You should know
It's 'bout time
You let go

Can't stop the water in the river from running away
Can't stop the fire it'll burn you if you pick up the flame
And like a ghost I can't let go I still remember the pain
I still remember the pain

But now its turned to rhythm
Running through my veins
I've got a clearer vision
Since you've been away
And I can't help this feeling
It's gonna take me there
Don't mind just move out my way
Move out my way

Out my way, oh oh
Can't stop the water in the river from running away
And like a ghost I can't let go I still remember the pain

But now its turned to rhythm
Running through my veins
I've got a clearer vision
Since you've been away
And I can't shake this feeling
It's gonna take me there
Don't mind just move out my way
Move out my way
