

# River Lie

Leroy Sanchez

I saw you coming from miles away  
From miles away, from miles away  
You tell a story right to my face  
Just not the same from yesterday  
Boy them lies gonna flood your mouth  
Watch out you're gonna suffocate  
Don't come running back to me now  
I'm done and you're too fucking late

Bet I would set this house on fire  
Before I let you back inside  
When trouble waters rolling higher and higher

Just let the river  
Let the river  
Let the river  
Let the river lie lie lie lie

Just let the river  
Let the river  
Let the river lie lie lie lie  
Lie lie lie

You made a bed with empty words  
Where you could lay my heart to die  
Don't you know I'm like gasoline?  
You struck the match, I'll run you dry

Maybe you think  
Way too high of yourself  
When really you're not more  
Than dust on the shelf

Bet I would set this house on fire  
Before I let you back inside  
When troubled water's rolling higher and higher

Just let the river  
Let the river  
Let the river  
Let the river lie lie lie lie

Just let the river  
Let the river  
Let the river lie lie lie lie  
Lie lie lie

Baby you're wasting your time standing at my door  
Don't bother knocking cause love don't live here no more

Baby you're wasting your time standing at my door  
Don't bother knocking cause love don't live here no more

Just let the river  
Let the river  
Let the river  
Let the river lie lie lie lie

Just let the river  
Let the river  
Let the river lie lie lie lie  
Lie lie lie

At my door

Don't live here no more

At my door

Just let the river
