

Stay For A While

Leroy Sanchez

Don't you wanna dance some more
Don't you wanna dim the lights
Don't you wanna close the door
Right here tonight

Don't you wanna stay a while
Don't you wanna laugh out loud
Cause I wanna see your smile
Come let it all out

It's getting late, we're moving slow
And soon you'll say you gotta go
But outside it's way too cold
So much better here

So do you have plans
Or somewhere to be?
Just forget it for now and
Stay here with me

Cause the night isn't over
And I like your style
You don't have to stay over
Just stay for a while
Just stay for a while

Don't you wanna feel the rain
Dropping on your lips to mine
Don't you wanna feel this flame
And stop the time

What if we turn the music low?
I guarantee before you know we'll
Be kissing on the kitchen floor
Like a movie scene

So do you have plans
Or somewhere to be?
Just forget it for now and
Stay here with me

Cause the night isn't over
And I like your style
You don't have to stay over
Just stay for a while
Why don't you stay for a while

And with your chest so close to mine
I hope that all our stars align
So we can kiss frozen in time
Like a movie scene

Well do you have plans
Or somewhere to be?
Just forget it for now and
Stay here with me

Cause the night isn't over
And I like your style
You don't have to stay over
Just stay for a while

Do you have plans
Or somewhere to be?
Just forget it for now and
Make love right here

Cause the night isn't over
And you like my style
No, you don't have to stay over
Just stay for a while
Just stay for a while
Just for a while
