

## Til Death Do Us Part

Leroy Sanchez

I never thought I'd see this day  
Standing here with you  
It could have gone so many ways  
But you know I do  
Thank the universe that all the stars aligned for us  
Till the end two hearts one love

And I'm givin' you my hand now  
And I'll be yours till the sun burns out

Until our hearts are barely beatin'  
I'm gonna stay right where we are  
Until we're old and barely breathin'  
'Til death do us part

And the moment we locked eyes  
From across the room  
I knew you would change my life  
And you know I'll do  
Any little thing I can just to make you laugh  
From our first dance to our last

And I'm givin' you my hand now  
And I'll be yours till the sun burns out

Until our hearts are barely beatin'  
I'm gonna stay right where we are  
Until we're old and barely breathin'  
'Til death do us part

On and on, on and on, on and on  
On and on, on and on, on and on

Until our hearts are barely beatin'  
I'm gonna stay right where we are  
Until we're old and barely breathin'  
'Til death do us part  
And only love can be so honest  
I swear that I'll never go too far  
Darling it's true for you I promise  
'Til death do us part
