

## Pretty Little Song

Les Claypool

If you're facin' imminent disaster  
Sing a little song  
A pretty little song  
If they start to question your abilities  
Well, sing a little song  
A pretty little song  
As the stones are moving through your kidneys  
Sing a little song  
A pretty little song

There's something strange a chaffing at your testes  
Well, sing a little song  
A pretty little song  
If they accuse you of not flossing daily  
Well, sing a little song  
And tell them that they're wrong  
A pretty little song  
A pretty little song
