

# Make Believe

Les Friction

I need something I can make  
To own the things that I create  
To hold my lens in front of you  
To show myself what is your truth

Of all the things I want to make  
It's belief that life is great

Let's leave nothing unsaid  
I wanna know what's in your head

Let's sleep on it tonight  
We can dream we got it right

Let's make believe there is a flood of light  
That comes to end the night  
So we can dance through our life

Make believe that things will stay this way  
And that our hearts won't break  
Cause we're not long for this place

Oh, I may be out of line  
But now I'm running out of time

Keep that mirror in your view  
Keep what's real from coming through

God forbid you want my love  
All to give is not enough

Of all the things I want to make  
I'll build a life with you in place

Dive right in and let the waves wash over you  
We're not giving up  
We're not caving in

Hold the wind  
Darling let it lift you up  
We're not coming down  
We're not giving in
