

A Girl In Love

Lesley Gore

A girl in love must know you really love her true
A girl in love must know you feel the same way too

She's got to know you want her every morning
She's got to know you need her every night
She's has no other way to really know it
How much you want to hold her tight
To hold her tight

A girl in love needs someone close beside her
A girl in love needs warmth and strength to guide her

Don't be afraid she's just as shy as you are

Hold out your hand and have her come to you
I have to teach you how to treat her tenderly
I'm the girl in love with you
In love with you

Stand very close to her

Be strong and guide her

Don't be afraid she's just as shy as you are
Hold out your hand and have her come to you
I have to teach you how to treat her tenderly
I'm the girl in love with you
In love with you
A girl in love
