

Lose It

Leslie Odom Jr.

Them grins used to be sweeter
Them kisses used to be deeper
Currents were stronger
Now it's all underwater (All underwater)

Where did we lose it?
Why did we lose it?
Why did we lose it? Oh, no, no
Why did we lose it?

Autumn was longer
And the summer burns stronger
But I still keep thirty flowers [?]
Ones that used to be ours

Where did we lose it?
Where did we lose it?
Where did we lose it? Oh, no, no
Where did I lose you?

Might seem strange to wish for everything the same
And time has ways of smoothening the memories made
Might seem strange to wish for everything the same
Life runs fast, the best to come is now just past

I know that she's rising above the quiet
We just kept flying higher
But I never could have known
It was as high as we would ever go

Where did we lose it?
Where did we lose it? Oh, ooh, oh
Where did we lose it?
Where did we lose it?
