

# Colors

Letdown.

Undone by yours, the red wire  
So cold but it's on fire  
You caused this with your desire  
So go weigh the world  
Now you know that she's so

High like the color, color, color  
And I'm over it, so  
Don't wanna let go  
Take me over and she's so  
High like the lover, lover, lover  
They wanna let go  
Get outta my low  
Take me over and she's so

Go take this pain away, take whatever you needed  
I pray, I pray, I pray we won't ever defeat it  
Her hate will stay the same, they won't ever repeat it  
And her name will stay the same, cause she's so

High like the color, color, color  
And I'm over it, so  
Don't wanna let go  
Take me over and she's so  
High like the lover, lover, lover  
They wanna let go  
Get outta my low  
Take me over and she's so

(High like the color, color, color)  
I can't live without my name inside my soul, oh  
I can't be what they want, now I'm left without  
My soul

High like the color, color, color  
And I'm over it, so  
Don't wanna let go  
Take me over and she's so  
High like the lover, lover, lover  
They wanna let go  
Get outta my low  
Take me over and she's so

High like the color, color, color  
And I'm over it, so  
Don't wanna let go  
Take me over and she's so  
High like the lover, lover, lover  
They wanna let go  
Get outta my low  
Take me over and she's so
