

## Dead Right

Letdown.

The basement light  
Our conversation  
The tv's off  
Two dull reflections  
We're landed now  
A new direction  
Too far to let it all go, so

Take it back, take it back  
Rewind all of that  
I know, you know that we know there's

No point in wasting more life  
You're dead right, you're dead right  
Strung out and late in over time  
You're dead right, you're dead right

The ceiling fan  
Is out of patience  
Went round and round  
Said things I hated

Take it back, take it back  
Rewind all of that  
I know, you know that we know there's

No point in wasting more life  
You're dead right, you're dead right  
Strung out and late in over time  
You're dead right, you're dead right

You're dead right  
You're dead right

You're dead right  
You're dead right

Don't need more late night and cigarettes  
Rolling round, and saying what was said  
Take it back, take it back  
Rewind all of that  
I know you know that we know there's

No point in wasting more life  
You're dead right, you're dead right  
Strung out and late in over time  
You're dead right, you're dead right

You're dead right  
You're dead right

You're dead right  
You're dead right
