# Go To Hell

**Letdown.**

Started with a kiss, the taste of mint was on your lips
The way you turned your head to look at what you thought was love and bliss
Like every story ever told you found a way to make me slip
What I could've ever had was what you wanted me to miss

You built those walls
So damn tall
You just let me fall
Hid your scars
But I'm not your tool
Had no clue
I'm your fool

Heaven knows I'd go to hell for you
After all the hell you put me through
Yeah I know that I should cut you loose
For someone else there's no one else
Heaven knows I go to hell for you
After all the crazy things you do
Yeah I know that I'm crazy too
I'll go to hell, go to hell for you

I should've known a tattoo of your ex that's on your wrist
You know the one you never covered up 'cause he's the one you miss
Another flag that's colored red, another fight, another kiss
And if you think that I was smarter I would leave I wouldn't miss

But I'm not that smart
I've got scars
You've got no more heart
This ain't hard
It's not me it's you
Got no clue
I'm your fool

Heaven knows I'd go to hell for you
After all the hell you put me through
Yeah I know that I should cut you loose
For someone else there's no one else
Heaven knows I go to hell for you
After all the crazy things you do
Yeah I know that I'm crazy too
I'll go to hell, go to hell for you

You're my drugs and alcohol
And honestly I've tried them all
My life is filled with tragedy
Your lies don't help they rescue me

You're my drugs and alcohol
And honestly I want 'em all
My world's not short on tragedy
So sit back and watch me bleed

I'll go to hell, I'll go to hell
I'll go to hell, go to hell for you
