

## It Gets Better

Letdown.

So much I wanna tell you  
So much I wanna show you  
But you're not there when I turn around  
Hope you know that I'm trying  
But it's a blurry silver lining  
That I'm still waiting to figure out

It's hard 'cause I know  
That you're still in my phone  
And you're the only one I can't call  
I hope that you're proud  
That I made it out  
I just really miss you that's all

And there's no way back home  
But they say it gets better  
It's just hard to be alone sometimes  
So I'm betting on forever  
Cause when I feel the wind  
It's really you  
And you'll meet me at the door  
When my time is through  
Can't say I know  
But they say it gets better

Driving nowhere on side streets  
Trading stories and memories  
Running down dreams as fast we can  
I went back to that parking lot  
Where I'm here and you're not  
Somethings I'll never understand

I know that you're proud  
That you're watching me now  
Know you're waiting for me somewhere

And there's no way back home  
But they say it gets better  
It's just hard to be alone sometimes  
So I'm betting on forever  
Cause when I feel the wind  
It's really you  
And you'll meet me at the door  
When my time is through  
Can't say I know  
But they say it gets better

And there's no way back home  
But they say it gets better  
It's just hard to be alone sometimes  
So I'm betting on forever  
Cause when I feel the wind  
It's really you  
And you'll meet me at the door  
When my time is through  
Can't say I know  
But they say it gets better

You'll be there  
Waiting for me  
I'll be here  
I'll be here  
You'll be there  
Waiting for me  
I'll be here  
I'll be here
