

# Memory

Letdown.

There it goes  
Another year  
I hope the laughs out live the tears  
And we leave our story written in this melody  
And I know we don't choose  
Who we keep or who we lose  
If you can't stay with me  
I'll meet you in my memory

I can see our footprints in these hallways  
10,000 hours between these walls  
But people come and go, and everybody changes  
Time it never slows  
And still, we try to chase it  
Until it fades away

There it goes  
Another year  
I hope the laughs out live the tears  
And we leave our story written in this melody  
And I know we don't choose  
Who we keep or who we lose  
If you can't stay with me  
I'll meet you in my memory

There were highs, there were lows  
No, we weren't perfect  
But through the good and the bad  
Made it all so worth it  
So, here's to the times we'll forever have  
Bittersweet memories  
You can tell your dad  
It was me every week sneaking in the back, yeah  
And I hope it's something we can always joke about

There it goes  
Another year  
I hope the laughs out live the tears  
And we leave our story written in this melody  
And I know we don't choose  
Who we keep or who we lose  
If you can't stay with me  
I'll meet you in my memory

And we leave our story written in this melody  
And I know we don't choose  
Who we keep or who we lose  
If you can't stay with me  
I'll meet you in my memory
