

# Pain

Letdown.

Been moving all my days  
Seen life and I've seen pain  
Same blood in my veins  
There's trouble in my skin  
Same fires wearing thin  
Don't look the other way  
Been working waste away  
Same evil in my face

They talk but they never wanna listen  
They scream and we never wanna hear it  
They try but they're never gonna get me  
All I know, singing

Some day gonna get me out of my head  
Sorry, I don't have another mindset  
They see that they're never gonna get me  
All I know, singing

I found another way  
To find joy and not the pain  
There's no escaping me  
Now  
I found another way  
To feel joy and not the rain  
There's so much left in me  
Now

They talk but they never wanna listen  
They scream and we never wanna hear it  
They try but they're never gonna get me  
All I know, singing

Some day gonna get me out of my head  
Sorry, I don't have another mindset  
They see that they're never gonna get me  
All I know, singing

Some day, I'll try  
To find the light that's in those eyes  
That's in those eyes, honey  
One day, we'll find  
The path that leads us from the lies  
The lies  
Some day, I'll try  
To find the light that's in those eyes  
That's in those eyes, honey  
One day, we'll find  
The path that leads us from the lies  
The lies

They talk but they never wanna listen  
They scream and we never wanna hear it  
They try but they're never gonna get me  
All I know, singing

Some day gonna get me out of my head

Sorry, I don't have another mindset  
They see that they're never gonna get me  
All I know, singing
