

## Raincoat

Letdown.

Should've known a storm was on its way  
Sweating out the night all through the day  
Couldn't really see it coming  
Pitch black in the night I'm wondering

How did my clothes all get so wet  
And how does she put up with my shit  
A little bit of me is wishing  
That she's right so maybe I should  
Listen

Apologize a thousand times a week now  
Sometimes she likes to  
Lock me out all night without a raincoat  
What did I do this time

Always says her phone just wasn't charged  
But I know she can hear when the dog barks  
Kinda wondering how we function  
When we are always running backwards

Apologize a thousand times a week now  
Sometimes she likes to  
Lock me out all night without a raincoat  
What did I do this time

Why do we stay  
Why do we always love to complain  
Why do we always fight when it rains  
Say that we'll change  
But I'll never change  
What did I do this time

Apologize a thousand times a week now  
Sometimes she likes to  
Lock me out all night without a raincoat  
What did I do this time

Why do we stay  
Why do we always love to complain  
Why do we always fight when it rains  
Say that we'll change  
But I'll never change  
What did I do this time
