

Shipwreck

Letdown.

Shipwreck floating away
When I don't have anyone to help me climb
I can't keep living this way
When I walk, they talk, you know they think they see
But I'm not going away
When I've got so much life left to live
Inside my head is full of shame
But I'm not done

They know my name, their teeth are waitin'
And they know my shame, but I'm not fallin' apart
They know my ways, but they're not waitin'
I should've run from the start

But they lie to me, I talk back
But they don't have the answers to the right path
I only wanna kill my fear and not hear what they have to say

Show me the way
Show me the way
Shipwreck floating away
Shipwreck floating away

I've been so afraid
Death won't stop 'til we've all been taken
I won't ever change
Life goes on while the rest are losing

They lie to me, I talk back
But they don't have the answers to the right path
I only wanna kill my fear and not hear what they have to say

Show me the way
Show me the way
Shipwreck floating away
Shipwreck floating away

He's a bad play, he's down on his knees
They're singing, "Wrong turn, boy"
He's a heathen
No home in, no season
Wrong question, no reason

Shipwreck floating away
When I don't have anyone to help me climb
I can't keep living this way
But I'm not done

Show me the way
Show me the way
Show me the way
Shipwreck floating away
Shipwreck floating away

(Shipwreck floating away)
(Shipwreck floating away)
(But I'm not done)
