

# Sober

Letdown.

Watching, this world go crazy while we sleep  
I, don't like it talking while we eat  
I, don't mind it when you look at me

Eyes so, inviting tripping in the seat  
I'm, not blind but I can't even see  
I, won't lie it's taking over me

But be careful who you need  
When you're out there sober  
And I don't wanna waste  
No day getting older  
Cause they've been talking  
And all their words  
Are cheap

But this life is never made  
For a man or woman  
And I've been talking  
To ghosts all morning  
And they talk you know  
Their talk is cheap

I'm so, electric take it all from me  
Why, I let go everyone I meet  
I, know every, personality

Some say, I hold to animosity  
For, the others laying at my feet  
I, don't like it when they stare at me

But be careful who you need  
When you're out there sober  
And I don't wanna waste  
No day getting older  
Cause they've been talking  
And all their words  
Are cheap

But this life is never made  
For a man or woman  
And I've been talking  
To ghosts all morning  
And they talk you know  
Their talk is cheap

But be careful who you need  
When you're out there sober  
And I don't wanna waste  
No day getting older  
Cause they've been talking  
And all their words  
Are cheap

But this life is never made  
For a man or woman  
And I've been talking

To ghosts all morning  
They talk you know  
Their talk is cheap

But be careful who you need  
When you're out there sober  
And I don't wanna waste  
No day getting older  
Cause they've been talking  
And all their words  
Are cheap

But this life is never made  
For a man or woman  
And I've been talking  
To ghosts all morning  
They talk you know  
Their talk is cheap
