

# Voices

Letdown.

Tell me, tell me  
Put a smile on, let's get ready  
I'm sending messages meant only for myself  
Don't lie to me  
Louder, louder  
Still crying in the shower, shower  
Don't mind me talking I'll keep laughing with myself

Let's make believe

Inside starts to feel like outside  
Feed me 'til my heads right  
But it's all a lie

Voices in my heads  
La da dada da da  
La da dada da da da  
Love em 'til the end  
With the Voices in my head  
A never-ending party  
I'm never ever lonely  
Love em 'til the end  
They're the Voices in my head

They're apart of me  
Always judging me  
I don't wanna know  
If everything is alright  
Cause I'm reeling off this ride

Inside starts to feel like outside  
Feed me 'til my heads right  
But it's all a lie

Voices in my heads  
La da dada da da  
La da dada da da da  
Love em 'til the end  
With the Voices in my head  
A never-ending party  
I'm never ever lonely  
Love em 'til the end  
They're the voices in my head

It's all make believe  
Don't mind me talking I'll keep laughing with myself  
Let's make believe

La da dada da da  
La da dada da da da  
Love em 'til the end  
With the Voices in my head  
La da dada da da  
La da dada da da da  
Love em 'til the end

Voices in my heads

La da dada da da  
La da dada da da da  
Love em 'til the end  
With the Voices in my head  
A never-ending party  
I'm never ever lonely  
Love em 'til the end  
They're the voices in my head
