

## Bitter Taste

Lethal

No sleep tonight something is crawling  
No sleep tonight someone is falling  
I'm not my fear I'm still in here  
I'm searching through  
One more insane memory

I found myself knowing nothing  
For the first time  
I found myself knowing something  
For the last time

One more last kiss I've never felt this  
Ignorance is bliss I've always felt this  
I'm not my fear I'm still in here  
I'm searching through  
One more insane memory

I found myself knowing nothing  
For the first time  
I found myself knowing something  
For the last time

A bitter taste, a bitter taste my friend  
You can't erase a bitter taste my friend

Now that we've lost each other  
Now that I've lost myself  
Now that I'm down on my knees  
Still trying to spit the venom out

When you're around it's easy  
When you're around it's easy

No sleep tonight my mind is healing  
No sleep tonight my thoughts are killing

I'm not my fear I'm still in here  
I'm searching through  
One more insane memory

I found myself knowing nothing  
For the first time  
I found myself knowing something  
For the last time

One more insane memory  
I'm searching through  
One more insane memory
