

## Down

Lethal

I left the fear I left the pain  
Look on your face, blood in your vein  
Holding me down I can't be bound  
By what I've had

Waiting to be forgiven  
Hating the life I'm given  
I came down, I stay down

The faster you came the faster you fell  
We're all in the same personal hell  
Holding me down I can't be bound  
By what I've had

Waiting to be forgiven  
Hating the life I'm given  
I came down, I stay down  
I'll never know, I'll never know  
Words that lead me to understand  
Can't feel my face, my faith  
My hands embraced again

Ran for the doorway  
Fell on the stairway  
Hard to imagine living  
I breathe in the cold air  
No one is home there  
Hard to imagine living  
Hard to imagine dying  
Hard to imagine

The faster you came the faster you fell  
We're all in the same personal hell  
Holding me down I can't be bound  
By what I've had

Waiting to be forgiven  
Hating the life I'm given  
I came down, I stay down  
I'll never know, I'll never know  
Words that lead me to understand  
Can't feel my face, my faith  
My hands embraced again

I'll never know, I'll never know  
Words that lead me to understand  
Can't feel my face, my faith  
My hands embraced again
