

Poison Seed

Lethal

Suddenly
Leave me alone I've never had the time
Part of me
Wanted to look but I pretend I'm blind
Better now
Through with the pain & pouring rain
Try to find
The parts I've thrown away

My mind found a poison seed
I've been lost inside of me
It's cold in here, this year

Killing me
With razor lips, fingertips
Surgically
My senses torn away
Hard to trace
An empty face, a cold embrace
Holding me
In place another day

My mind found a poison seed
I've been lost inside of me
It's cold in here, this year

A thought comforted me
And waited until my eyes could see
My sight became too clear
Then faded with each passing year
A brilliant scene, a tragic play

Hard to trace
An empty face, a cold embrace
Holding me
In place another day

Killing me
With razor lips, fingertips
Surgically
My senses torn away

My mind found a poison seed
I've been lost inside of me
It's cold in here, this year

I've found a poison seed
Living inside of me
I've found a poison seed
Killing inside of me
A brilliant scene, a tragic play
I hate this poison seed
