

Comprehension Is Overrated

letlive.

Bewildered unbridled you're granted one touch
Of course it's not all what it seems
I look down at the hand of sin or what you may call it
At these hands that will never burn clean
Ms. understood now you take a look,
Because things aren't as clear now are they?
Mr. everything's good you
Practice this skill like every single day
I'm ok, I practice this skill everyday,
And I'm ok in an everything's fucked kind of way

Ready, aim, liar

The pen is mightier than the sword, so these words are better t
o kill you with
These words cannot be stopped, for if they were
I wanted a decent funeral, six feet under in my ebony box
Take the silver lining and wrap it around your neck
Words are expressive so when I say "bang" you're dead and when
I say please
You'll love me, and when I say stop it means that I've taken en
ough

I'll destroy your path(to)logical lying
As long as you explain this to me,
I'm sure I won't mind dying on my own

Words expressive say bang, words expressive say stop,
Words expressive I love you
...I loathe you
...I fucked you
