

[LeToya Lockett:]

Where do we go now?

Do we keep on walking into grey

Don't know now

But do we turn around, play it safe and take it slow now

I need to know now

Oh, I need to make sure that we

Know exactly where we need to be

And for the first time in a long time things ain't so clear

And as much as I wanna hold on, I know if we stay here

I'll never see my fairy tale, I'll just be another nightingale

If you never plan on setting sail, then why keep me here?

There's no way we can stay in the grey

We don't have to fall in love

If that ain't what you want, oh

But it's not okay for us to play in the grey

We don't have to fall in love

But I know what I want, ooh

What do we do now?

The longer you lay in my arms, the harder I'll be to lose now

You try to resist but every kiss is making you wanna stay

If you don't ever wanna leave then, boy, it's all you have to say

Just tell me what to say, ooh

And for the first time in a long time things ain't so clear

And as much as I wanna hold on, I know if we stay here

I'll never see my fairy tale, I'll just be another nightingale

If you never plan on setting sail, then why keep me here? Oh, baby

There's no way we can stay in the grey, babe

We don't have to fall in love, oh

If that ain't what you want, oh

But it's not okay for us to play in the grey

We don't have to fall in love, we don't have to fall in love, no

But I know what I want, ooh

[Ludacris:]

I know exactly what I want

You gon' hear the plan, Luda

Listen, either you want it or you don't

Nobody got time to be playin' games as sure as the season change

You'll either be rich in love or go for broke

And life is too short to wastin' time and baby, you wastin' mine

You sinkin' and I'm just tryna stay afloat

I feel like at times you gettin' bored, we playin' a tug-o-war

And you the only one that's pullin' on the rope

We were in perfect harmony until you went off on a couple notes

And now I'm singin' to the tune of a sad song

You be the reason that we may not ever last long

You be leavin' me in the dark without the flash on

Get the picture? And I'm about to get my dash on so even quicker

Make up your mind, make up your time, pick up your face

Put it on the line, go put a clown, don't play it safe

It's inevitable, our feelings gon' get in the way

But on the way, we can't be playin' all in the room, hey

[LeToya Lockett:]

There's no way we can stay in the grey

We don't have to fall in love, oh no

If that ain't what you want, oh

But it's not okay for us to play in the grey

We don't have to fall in love

Ooh 'cause that ain't what I want
