

# Higher

LeToya

Here we go again  
How you bite that  
You know how I like it  
B-B-B-Baby get it in  
Temperature is rising  
Not even tryna fight it

Your love has got me sweating babe  
You got that perfect dose of aggression babe  
My body's under your control, babe  
One more hit and I'ma overdose

Baby you keep taking me higher  
You're my supplier  
Your love is what I'm about  
I never plan on coming down  
Starting with the taste  
How I don't want to escape

Honey you take me higher  
Take me higher, take me higher  
You're my supplier  
Baby won't you take me higher  
Take me higher, take me higher  
You're my supplier

We in them clouds now  
Hell no we ain't trying to land  
All gas, no brakes, lay back, no way, won't wait  
It's time now  
Hmm, it's not [?], right now  
I'm ready right now

Your love has got me sweating babe  
You got the perfect dose of aggression babe  
My body's under your control, babe  
One more hit and I'ma overdose  
Yeah, yeah

Baby you keep taking me higher  
You're my supplier  
Your love is what I'm about  
I never plan on coming down  
Starting with the taste  
No I don't want to escape

Honey I need you take me higher  
Take me higher, take me higher  
You're my supplier  
Baby won't you take you me higher  
Take me higher, take me higher
