

# Tears

LeToya

What are you doing?  
How did we get here?  
What is this feeling? Tell me its mine  
Where did you take me? I want to stay here  
What I've been missing all this time  
And as I whisper in your ear something is changing and I'm unclear  
Touching and Kissing my body feel different  
I lost my senses

When you find the right spot take control  
And you lock on me and you won't let go  
I wasn't ready for all that you had in store  
Baby I want more and more and more

I don't know what have you got in you  
Makes me emotional  
What is it that you do that brings me the tears  
Cause I'm crying you got me in tears  
Boy you make me feel so oooohhhh  
I can't describe it I feel so vulnerable  
What is it that you do that brings me the tears  
Got me crying you got me in tears  
You got me in tears

You got me so high I'm in a rush here  
Please baby take me I wanna go  
Whats happening now My vision unclear  
Far from physical you touch my soul  
Don't bring down just leave me here  
No other feeling can't compare  
Still touching and kissing  
My body feels different I lost my senses

When you find the right spot take control  
And you lock on me and you won't let go  
I wasn't ready for all that you had in store  
Baby I want more and more and more

I don't know what have you got in you  
Makes me emotional  
What is it that you do that brings me the tears  
Cause I'm crying you got me in tears  
Boy you make me feel so oooohhhh  
I can't describe it I feel so vulnerable  
What is it that you do that brings me the tears  
Got me crying you got me in tears  
You got me in tears

Hold me baby don't let go  
I'm speechless baby I dont know  
What you doing to me  
But dont stop  
What you doing to me doing to me  
When you find the right spot take control  
And you lock on me and you won't let go  
I wasn't ready for all that you had in store  
Baby I want more and more and more

I don't know what have you got in you  
Makes me emotional  
What is it that you do that brings me the tears  
Cause I'm crying you got me in tears  
Boy you make me feel so oooohhhh  
I can't describe it I feel so vulnerable  
What is it that you do that brings me the tears  
Got me crying you got me in tears  
You got me in tears
