

Cool & Collected

Let's Eat Grandma

Safe to say we are still strangers speculating all the time
I'll still wait to [?] sitting down to watch [?]
[?] so infectious, next to you, I'm far away
That's sometimes why I feel the need to echo every word you say
'Cause I'm impressed with you, but don't have that effect on yo
u
I can't express to you, I'll be here if you want me to
I'm just obsessed with you, I'm always such a mess with you
So what we gonna do, we're gonna find out somehow

How to be cool and collected
I wanna be bold and unaffected
But I'm just ooh, ooh
But I'm just ooh, ooh
The same as I ever was
The same as I ever was
The same as I ever was

And you make me feel so
And you make me feel so
And we're gonna find out somehow

How to be cool and collected
I wanna be bold and unaffected
But I wish I was you
I still blur in the haze that you cut straight through
Like you wanted me to
And you'll always wait, but I thought you knew
That I'm the same as I ever was

The same as I ever was
The same as I ever was
The same as I ever was
I'm the same as I ever was
The same as I ever was
The same as I ever was
