

## 4 Leaf Clover

Letters to Cleo

Tell me when you're coming over  
When you're coming into town  
It doesn't got to be a big deal  
I just like having you around

I finally found you like a four leaf clover  
And I'm feeling like I'm seventeen

Back when my heart was broken  
My skin was paper thin  
But I got my shit together  
I'm never gonna cry again

Now that my soul is undefended  
I'm a winter magnolia tree  
Ah ha!

You can't have enough love in life  
Scoop it up and hold on tight!  
Remain afraid  
Make mistakes  
And love, love, love, love, anyway!

Feel like I've always known you  
In some capacity  
But I don't wanna own you  
I'm too tied to being free

So, I'll be cool if nothing happens  
But if it does, that's also fine by me  
Ah ha!

You can't have enough love in life  
Scoop it up and hold on tight!  
Remain afraid  
Make mistakes  
And love, love, love, love, ANYWAY!

How far the wind blows  
Ba ba ba ba ba  
How high the sky goes  
Ba ba ba ba ba

Tell me when you're coming over  
When you're coming into town  
It doesn't got to be a big deal  
I just like having you around

I finally found you like a four leaf clover  
And I'm feeling like I'm seventeen

Tell me when you're coming over  
Tell me when you're coming over  
Tell me when you're coming over  
Tell me when you're coming over
