

# All over You

Level 42

The sap is rising  
And there's no disguising  
What I feel for you  
So mesmerizing  
Got me fantasizing  
Nothing I won't do

Parascending, whoa oh  
But it's all depending  
On your sky so blue  
My wings keep stalling  
From the sky I'm falling  
And it's over - all over you

All over you

Let me build a nation  
That bears no relation to the one we knew  
Take inspiration  
From my own salvation  
'Cause it's over - all over you

Get on board the gravy train  
Off the rails if you don't keep me sane  
Justify the things I do  
Just believe that it's all over you

All over you

The sap is rising  
And there's no disguising  
What I feel for you  
So mesmerizing  
Got me fantasizing  
And it's over - all over you

Through the heat-haze and the blue  
I will shimmer and distort  
And become what you always knew  
But were never taught in this sad time

Take on board the things I say  
Just be sure that you'll be mine someday  
Justify the things I do  
Just believe that it's all over you

All over you

The sap is rising  
Got me fantasizing  
So mesmerizing  
And there's no disguising  
That it's over - all over you
