## Level

Once I tried to tell em that I'm creeping up  
Right behind you  
But they had a little trouble In believing that I'd  
ever be fast enough  
Or even strong enough so what the hell was I thinking  
All eyes on me  
What's enough now I'm back with another brick with  
another tactic

I'll drink that water from the well  
If It'll help me help me  
I'll tell those stories that you tell  
If It'll help me help me

I'll sink a well well well  
I'll sink a well well well  
I'll sink a well well well  
I'll sink a well

I'll raise my cup to all the others who've been  
hollering  
Right above you  
But I got a funny feeling that I may not preach but  
I'll never fold  
Boy you better do what you're told  
Keep your enemies close and they close so tight  
Smoke with their coats from last night's fight

I'll drink that water from the well  
If It'll help me help me  
I'll tell those stories that you tell  
If It'll help me help me

I'll sink a well well well  
I'll sink a well well well  
I'll sink a well well well  
I'll sink a well

And it shoots right through me  
Like the wind with the windows down  
And it speaks right to me  
When I knew right there when I heard that sound

I'll drink that water from the well  
If It'll help me help me  
I'll tell those stories that you tell  
If It'll help me help me

I'll sink a well well well  
I'll sink a well well well  
I'll sink a well well well  
I'll sink a well well well

I'll sink a well well well  
I'll sink a well well well  
I'll sink a well well well  
I'll sink a well well well

Yeah and I'll sink a  
Yeah and I'll sink a  
Yeah and I'll sink a  
Yeah and I'll sink a
