

Rather Be Alone

Leven Kali

I'd rather be alone but I'm still mobbin' with the crew
I'd rather be alone but I be checkin' in on you
I'm always by the phone, but I been sippin' on the goose
And I never let you know, so I'm not trippin off of you

Sometimes I'm on my own just tryna figure what to do
I said I'm never goin' home, yeah I been sleepin' in the stu'
Lil mama gettin' grown, and now she pull up in the coupe
And she don't wanna be alone, she said I only fuck with you
And now I know better, I grow better
Three months gone, I'm a go getter
Ever since I was a young nigga, I always been a trendsetter
I been special, you should know better
Way back when I had no cheddar
We fucked around, I still held you down
Girl the time is now we can grow together

I told her hurry up and wait for me
You ain't gotta stay for me, I can't roll
You always got a lot to say to me
But you went and changed on me, that's so cold
But you know

I'd rather be alone but I'm still mobbin' with the crew
I'd rather be alone but I be checkin' in on you
I'm always by the phone, but I been sippin' on the goose
And I never let you know, so I'm not trippin off of you

I know you got that on the low but we want that good shit
I put on for the 310, but they want that hood shit
She said stop playing with my heart if you can't fix it
I kick her out the jammy like girl you gotta chill, chick

I told her hurry up and wait for me
You ain't gotta stay for me, I can't roll
You always got a lot to say to me
But you went and changed on me, that's so cold
But you know

I'd rather be alone but I'm still mobbin' with the crew
I'd rather be alone but I be checkin' in on you
I'm always by the phone, but I been sippin' on the goose
And I never let you know, so I'm not trippin off of you
