

## Prisoners

Leverage

I've seen love come  
I've seen love go  
Sneak its way in  
Then just leave out the door  
Tearing hearts 'til they're inside out  
Love turns to hate  
From a friend to a foe

I'm on the road, I'm on the run  
Won't let the devil get my heart  
Once rode me like a slave gave me  
Nothing in return

Tie your souls together  
And surrender prisoners  
True lovers  
Say it's in the air  
Enjoy the ride, you prisoners  
True lovers

I was yours  
You were mine  
We promised, 'til the end of time  
But then one day, before you know  
It's over  
All gone  
Not there anymore
