

## Run Down

Leverage

The wind's blowing ashes  
The sky's filled with dust  
Too scared to run  
But God knows we must

Missed our last ride to a safe haven

Caught in a landslide  
Of molten crust  
Preachers of wisdom  
Victims of trust

Some are cryin', some are praying

R:  
Run down the hill  
Like never before  
Mind your footsteps  
Fly, don't fall  
The ground is shaking  
The earth is breathing fire

Oh Holy Maria  
What have we done  
Leaning the wrong way  
The hill's going down

Trading places, Hell and Heaven

R:

R2:  
Run down the hill  
Stumble, be gone  
The devil's laughing above us all  
Twisting, breaking  
The earth is breathing fire

R:

R2:

Run down the hill (3x)  
Just run it down  
Run it down  
Just run it down  
Run down the hill
